

Hive Active Heating and Hot Water (not including installation)

Heating and hot water control from your mobile, tablet and laptop

Product overview

Take control of your heating and hot water anytime, anywhere. Hive makes controlling your heating and hot water easy from your mobile, tablet or laptop. The next generation Hive brings you beautiful design, intuitive control and easy to use features.

Hive works no matter who supplies your energy and will work with your existing heating system. With Hive you'll never need to heat an empty home again so you could save up to £150 a year on your heating bills.

Box contains

- Hive Thermostat
- Receiver
- Hub
- 4 x **DURACELL** batteries AA
- 1 x Ethernet cable
- 1 x Plug
- 1 x USB power lead
- 1 x Pack wall plugs
- Welcome guide
- User guide
- 1 x Installation guide supplied with product

Features

- **Heating and Hot Water schedules** – set up to 6 daily time slots
- **Heating and Hot Water Boost** – for up to six hours
- **Automatic Frost Protection** – helps prevent frozen pipes
- **Geolocation** – heating alerts when you leave or return home
- **Holiday Mode** – tell Hive your holiday dates and come back to a warm welcome
- **Child lock** – put a pin lock on your app or thermostat so children can't tamper with it
- **Text control** – send your command to Hive by text
- **Temperature graphs** – keep track of how you are using your heating

Key messages and benefits

1. Control your heating from your mobile, tablet or laptop
2. If you have a hot water tank, control your hot water too
3. No need to switch energy supplier
4. Works with your existing boiler
5. Save up to £150 a year on your heating bills

Your Hive kit

- **Wireless Thermostat** – lets you control your heating and hot water when you're at home.
- **Hub** – plugs into your broadband router so you can control your thermostat remotely.
- **Receiver** – enables your thermostat and hub to communicate with your boiler.

What you'll need to get Hive

- A working central heating system, Hive can be installed on gas or LPG systems (and certain Electric Boilers).
- An existing broadband connection with a spare Ethernet port connection.
- An extra power socket close to your broadband router.
- For the Hive app you'll need an Apple iPhone or iPad (iOS 7 or later) or a device running Android (min 4.0.3).
- Laptop or tablet with internet access and an up-to-date web browser (we recommend minimum: Internet Explorer 10 or the latest versions of Google Chrome, Firefox and Safari).
- Hive is a British Gas innovation, but you don't need to be a British Gas customer to buy the Hive products.

Thermostat

Receiver

Hive Hub

Extra info

- Hive Active Heating™ must be installed by a qualified professional.
- If you are buying Hive with no installation and have a hot water tank (conventional boiler) then Hive Active Heating and Hot Water™ is right for you. If you do not have a hot water tank (combi boiler) then Hive Active Heating™ is right for you.
