Predominantly used as under cabinet lighting, but with many other applications in a domestic environment, this range of ultra slim profile, high quality LED striplights uses the latest SMD LED technology to provide energy savings of up to 50% when compared to traditional T4 strip lights.

As well as making huge energy savings, maintenance costs are also negated throughout the lifetime of the fitting, so no more flickering or blown tubes to replace.

Each link light comes complete with power cord, link cable for interconnecting fittings or can be butt connected directly together to provide longer lighting solutions and are particularly suitable for:

- Cabinet displays
- Kickboard lighting
- Kitchen wall units
- Under counter
- Cornice lighting
- Bed headboard
- Workbench lighting
- Wardrobe lighting

FEATURES	BENEFITS

• Complete kit:
  ○ Fitting with male and female butt connectors
  ○ Plug-in power cord 1850mm long
  ○ 600mm linking cables
  ○ Vertical & horizontal mounting clips
  ○ Link up to 6 fittings together
	• Nothing else required
	• Fast and simple installation and direct linking of fittings
	• Saves time – quick and simple mains connection
	• Space the fittings out if required – go around corners
	• Enables light to be directed downwards or backwards
	• Only one power source required for longer runs

• High quality, high light output, low power SMD LED's	• Provides:
	  • Huge energy savings of approximately 50% compared to T4
	  • Long life without the hassle of replacing flickering or blown tubes
	  • Instant flicker free start

• Integral LED driver	• No separate driver to mount makes a fast and neat installation
• Warm white 3000K, high CRI LED's	• A subtle ambiance is created by the warm white light output • True colour rendering is produced for enhanced visual effect
• Available in 5 different wattages and lengths	• Caters for most cupboard or unit sizes to ensure uniform light distribution and effect
• Ultra slim profile polycarbonate body and diffuser	• Luminaire can easily be hidden behind pelmet • Durable and long lasting • Diffuser provides uniform even light coverage
• Integral switch	• Switch all fittings on with main switch or can be individually switched
• IP20	• Suitable for internal applications
• 2 year guarantee	• Piece of mind – fit and forget
